University of Business and Technology, Pristina   *Grade: 8.5/10*

C1 English Certification, Advanced Level (CEFR C1) | Certificate   **Jul 2024**
International Test of English Proficiency (iTEP), accredited by US evaluators.

EXPERIENCE

Frontend Developer   **Oct 2023 - Jun 2024**
Tectigon Academy | Pristina, Kosovo
- Developed and maintained user-friendly web pages using React and Next.js, enhancing the visual appeal and functionality of the academy's online platforms. Utilized TypeScript, Redux, and Tailwind CSS for advanced development and integrated MongoDB for database management.
- Integrated RESTful APIs using JavaScript, enabling dynamic content updates and interactive features for various educational tools.
- Participated in code reviews and collaborated with senior developers to enhance code quality and learn industry best practices.

Freelance Web Developer   **Apr 2023 - Oct 2023**
Self Employed | Boston, United States
- Delivered 15 professional websites using HTML5, CSS3, JavaScript and React best practices, integrating various RESTful APIs and AI-based functionalities for enhanced functionality and content management.
- Improved website performance by compressing, caching and lazy loading images and components.
- Included SEO, responsive, multi-platform and hosting support, enabling their website to be used by any browser or device in the world.

Frontend Engineering Internship   **Jul 2022 – Mar 2023**
Frontend Simplified
- Transformed a completely static HTML, CSS, JavaScript and React single page application into an interactive user interface using animations, transitions and carousels.
- Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing.
- Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team environment.

Software Developer Support   **Sep 2021 – Jun 2022**
Upwork
- Supported 100+ students using HTML, CSS, Flexbox, JavaScript, .Net, C# and SQL best practises.
- Utilized debugging best practises using Google Chrome inspect element tooling.
- Simplified difficult programming concepts including responsive website development, CSS layout, Promises and API requests.

PROJECTS

Ticket + | Website | GitHub
- Crafted an intricate movie platform with Google Sign-In, advanced Filtering, and Pagination, providing comprehensive movie details and ratings for informed viewing decisions.

NFT Marketplace | Website | GitHub
- Designed an NFT marketplace with cloud API integration, showcasing NFTs dynamically with comprehensive details, enhanced by smooth animations and a carousel component for engaging user interaction.

Who Wants To Be a Millionaire? | Website | GitHub
- Created an immersive Trivia Quiz Application reminiscent of "Who Wants to Be a Millionaire," featuring enhanced interactivity and engagement through dynamic functionalities.

E-Commerce Website | Website | GitHub
- Constructed a user-friendly E-commerce platform highlighting popular and recommended books, enabling seamless browsing, filtering, and purchasing, offering convenience and comfort for book enthusiasts.

Easy-View Movies| Website | GitHub
- Developed a movie browsing application, utilizing various technologies to interact with the TMDB API, providing users with comprehensive movie details and optimizing their experience through storage solutions.

TECHNICAL SKILLS

Languages: HTML5 | CSS3 (+ SCSS, BEM) | JavaScript ES6+ | Typescript | C#
Frameworks: React (+ hooks) | Next.js | Material-UI | Redux | Tailwind CSS | .Net
Technology: SQL | NPM | Git | Yarn | React Developer Tools | Firebase v9 | GitHub
